

March 10, 1899

From present indications, there is a fair prospect for a railroad connection between Heber and Provo. According to reports, contracts will be let today for grading through Provo Canyon to a point just below the mouth of Deer Creek. The contract will call for the completion of the grade on or before the 10th of

June so that the prospects for a road into the valley next summer seems flattering. With a railroad here, this valley will be one of the best, and we predict will become one of the most popular summer resorts in the state.
